

# System change announcement

---

## Release notes

1. Implemented mandatory input of mold estimate cost
2. Implemented warning when inputting product name and part number

**This release prioritizes resin molding and pressing**

# Required input of mold estimate cost

## Making mold cost mandatory (parent parts only, not child parts)

Item	RepresentativeMold/Die ID	Remarks	Currency	Total amount
Die cost			JPY	1,000,000
Plate cost	▼Supply mold		JPY	0
Jig cost			JPY	

When selecting [Supply mold] or [No target mold], the amount will automatically be set to 0 and cannot be changed

Add check processing to the total amount  
Required, numeric, and 0 or more

# Caution when entering product name and part number

**Comments are displayed when entering product names and part numbers to prevent them from being entered backwards.**

When entering product name

The screenshot shows a form with the following fields: Issue category, Quoted currency (USD), Quotation No., Product name, Product No., Model, Q'ty, and Industry. A red oval highlights the Product name field, which has a tooltip that reads: "Please enter the Product Name. Example: FRONT PLATE". A yellow callout bubble points to this tooltip with the text "Show comments". To the right of the form is a "Stamp" field and a "Print" button.

When entering part number

The screenshot shows the same form as above, but with a red oval highlighting the Product No. field. The tooltip for this field reads: "Please enter the Product No. Example: DH\*\*\*\_\*\*\*". A yellow callout bubble points to this tooltip with the text "Show comments". The "Stamp" field and "Print" button are also visible.
